Subject: Endorsement of ARC: International Wildlife Crossing
Infrastructure Design Competition

Dear Mr. Ament,

The Western Governors' Wildlife Council is pleased to endorse the concept ARC: International Wildlife Crossing Infrastructure Design Competition as a means to facilitate future landscape connectivity across major transportation arteries, and to provide additional measures of highway safety by reducing wildlife-vehicle collisions. Accordingly we would be pleased to have the Competition's Steering Committee publish this endorsement along with those of others.

Sincerely,

John Harja
Chairman
Western Governors' Wildlife Council
