

ABENGOA SOLAR

Solar Power for Tomorrow's World

Solar Power

October 2007

ABENGOA

4 billion \$ corporation
focused on sustainable
development

ABENGOA SOLAR

Concentrated Solar Power and PV
with projects in Europe, Southwest
US and Northern Africa

- ✓ Operating first commercial solar power tower worldwide (PS10)
- ✓ Building nearly 200 MWs (CSP troughs, CSP towers and PV)
- ✓ Much more under development
- ✓ R&D projects (trough, tower, PV and storage)

PS10
11 MWe

Troughs

400 MWs operation, 350 MWs construction, 7 GWs development

Towers

11 MW in operation

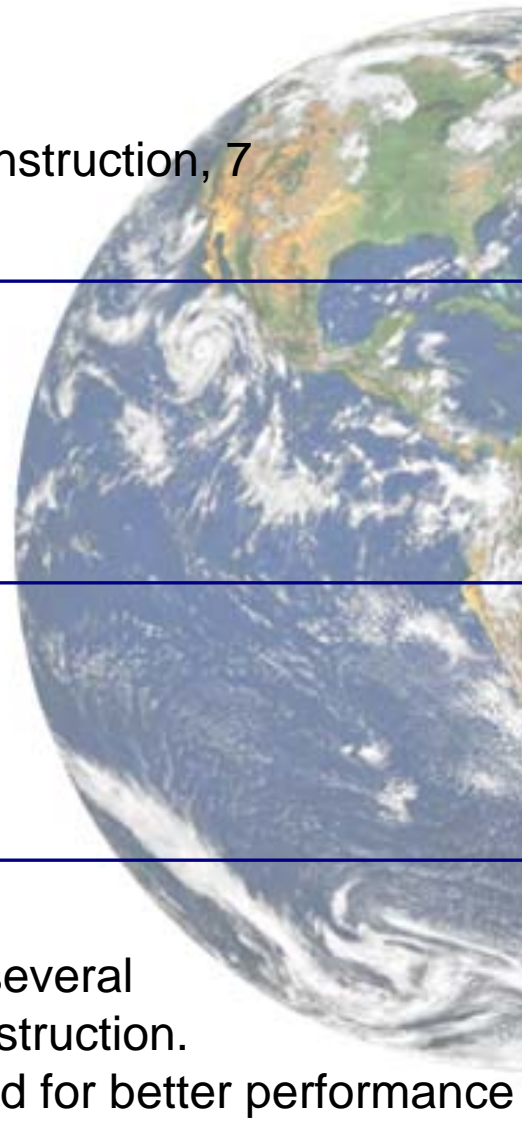

20 MW under construction

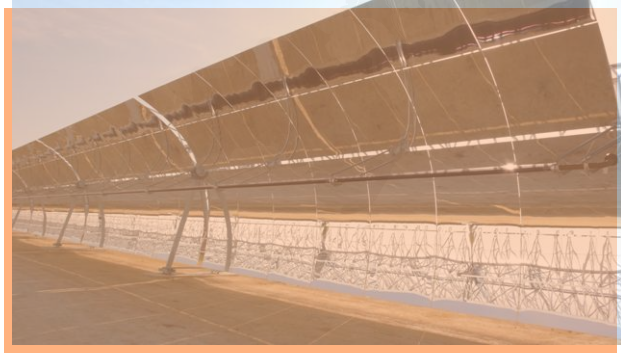

Storage in CSP

PV

Hundreds of MWs in operation in several countries, hundreds of MW in construction.

New Technologies being developed for better performance

- From high ration sites to existing lines
- Reinforce current transmission
- Export routes
