### **2009**

---

On March 17, the Governor's Energy Office announced that it would receive the 2009 Energy Star Partner of the Year Award. The GEO program was selected because of its work in encouraging the energy efficient home market in Colorado. [Press release.](#)

In January the Governor's energy office announced more than \$370,000 in grant monies to be awarded to eight organizations for work in biomass, solar, wind, and energy efficiency. The grants are part of a program to help stimulate the economy while focusing on Colorado's energy goals. [Press release.](#)
