Nevada Climate Change Report

Nevada Climate Change Advisory Committee

RPS

2009

On March 19, Governor Gibbons announced the formation of the Nevada Military Solar Energy Task Force. The task force, part of Gov. Gibbons' efforts to encourage renewable energy in the state, will work to streamline private investment in large and small solar projects on Nevada's military lands. "The focus of the task force will be to take action in hours, days and weeks, not months and years." [Press release](#).

In February the governor sent a letter to President Barack Obama "requesting changes to Internal Revenue Service Codes as part of any stimulus package. Such changes will allow special funding for electric power infrastructure in Nevada." [Press release](#).
