**STATE OF CALIFORNIA  
ENERGY RESOURCES CONSERVATION  
AND DEVELOPMENT COMMISSION****NOTICE OF WORKSHOP****DISCUSSION OF DRAFT ACTION PLAN TO ACHIEVE GREATER DEMAND  
RESPONSE IN THE ELECTRICITY MARKET**

The staff of the California Energy Commission will conduct this workshop to obtain public comment on a draft action plan to achieve greater demand response in the California electricity market.

**TUESDAY, MAY 21, 2002**  
10 a.m. – 4 p.m.  
PACIFIC ENERGY CENTER  
851 Howard Street  
(between 4th and 5th Streets)  
San Francisco, California

**Purpose of the Workshop**

At this meeting, the Energy Commission staff will present their draft action plan to reduce California's exposure to price volatility in the wholesale market over the next decade. Based on comments received at this workshop and consultations with our sister agencies, we will revise the plan for subsequent Commission consideration. We hope that participants at the workshop will strive to reach consensus on all or some of the proposed Actions within the staff's plan prior to Commission consideration of the plan. After a plan is adopted, the Commission plans to work with all interested stakeholders to ensure that the plan is implemented effectively.
