Princeton, New Jersey 08540-5721

Dear Mr. Anderson and Mr. Sergel:

Pursuant to its responsibilities under Section 215 of the Federal Power Act, the Western Interconnection Regional Advisory Body (WIRAB) offers the attached advice on the April 27 draft of NERC's Three-Year ERO Performance Assessment. WIRAB addresses only two issues in this advice. This advice supplements the WIRAB's advice on an earlier draft provided on March 3.

WIRAB appreciates the open process NERC has established in the three-year assessment and, more generally, the willingness of NERC staff to engage on topics of interest to WIRAB.

Sincerely,

John Savage, Chairman
Western Interconnection Regional Advisory Body
